Event: UI/UX Workshop – *The Design Mindset*

Organized by: Google Developer Groups (GDG), Vishnu Institute of Technology
Date: 19/12/2025
Time: 9:00 AM – 4:00 PM
Venue: Software Lab, C Block, 1st Floor

Resource Persons

- **Gowthami Tirumalareddy** – Design Lead
- **Ganesh** – Android Lead

Faculty Coordinator: Mr. Harsha
Meeting Called By: Yaswanth (Organizer)
Total Participants: 172 (Second-Year Students)

Objective

The UI/UX Workshop – *The Design Mindset* was conducted to build a strong foundation in User Interface (UI) and User Experience (UX) design among engineering students. The workshop aimed to highlight the importance of design in modern digital products and to encourage a user-centric approach to problem-solving.

The session focused on:

- Introducing core UI and UX concepts using real-world examples
- Developing creativity, usability, and structured design thinking
- Providing hands-on exposure to digital design tools such as Figma
- Encouraging students to explore UI/UX as a potential career path

Session Highlights

Introduction to Design & GDG

The session began with an overview of GDG and the importance of design thinking in building effective digital products, emphasizing the role of UI/UX in enhancing user experience.

Design Mindset & Fundamentals

Students were introduced to the concept of design mindset, different types of designers, and the distinction between UI and UX through practical and real-world examples.

UI & UX Basics

The speakers explained essential UI principles such as layout, color, and typography, along with UX principles including user flow, usability, and problem identification.

Hands-on Learning with Figma

A practical Figma session enabled students to apply their learning by creating digital designs and understanding real-world design workflows.

Practical Demonstrations & Activities

- Introduction to design thinking and UI/UX fundamentals
- Sketching real-world application ideas
- Hands-on Figma design session
- Designing multiple application screens
- Design review discussions

- Career guidance on UI/UX and design roles

Key Outcomes

- Students gained a clear understanding of UI vs UX concepts
- Hands-on practice improved design clarity, usability, and creativity
- Participants shared positive feedback on the clarity of explanations, real-world use cases, and the interactive nature of the workshop
- Students appreciated the hands-on guidance provided during the sessions
- Increased student interest in UI/UX careers and future GDG design-focused events

Conclusion

The UI/UX Workshop – *The Design Mindset* was successfully conducted under the leadership of **Organizer Yaswanth** and the academic guidance of **Faculty Coordinator Mr. Harsha**.
The sessions delivered by **Gowthami Tirumalareddy (Design Lead)** and **Ganesh (Android Lead)** provided strong conceptual understanding along with practical exposure to UI/UX design tools and methodologies.

Special appreciation is extended to all GDG domain leads, co-leads, and associates for their coordination, logistics support, and teamwork in ensuring the smooth execution of the workshop.
This workshop effectively empowered students with essential UI/UX knowledge, design thinking skills, and practical exposure, making it a highly impactful and memorable GDG event.
